Peter Moreira – TPS	Glenn Mannella - HRPS	Frank Miscione - OPS
Shaun Narine - TPS	Paul Evans - HPS	Shawn Blaj - HPS
Darrin Forbes - NRPS	Martin Schulenberg - HPS	Paul Burnett – OPS
Dawn Orr - PRPS	Tom Berczi - WRPS	Anthony Kilburn – CPP
Pat Morris – OPP	Frank Miscione – OPS	Andrew Taylor - OPP

OPP	intelligence briefing
YRPS	Integrated Planning Team underway at NOC, currently focused ongoing operations for this phase, fleshing out future POU plan – determining required #s and when
OPS	- Still party atmosphere, more attendees return on weekends - More aggression toward police being shown – surrounding officers - Number of trucks believed to have departed Sunday night (to be validated) - Counter protests – slow roll of 300 blocked the convoy, POU intervened - Truck operators leaving rigs at night for hotels, damage & graffiti - arrests made - Mayor negotiating with organizers to shrink convoy to P. Hill area away from residential zones
PRPS	Pop up protest in Mississauga on Sunday, 250 protesters
HPS	Windsor – few extra protesters returned – dealt with by PLT and uniforms
NRPS	- Saturday bridge protests – 150-300 vehicles arrived at rallying points to Peace Bridge – overall disorganized and leaderless group - Commercial traffic rerouted – protesters blocked from accessing - Pop-up protests all GOA now and QEW reopening – protesters may return next weekend - Working on larger ops. Plan
CPP	- All quiet in Ontario on rails, watching for usual blockade players - Presence in Emerson and Coutts now
LPS	30 arrests made in Windsor - Effective practices – PLT near bridge, early morning action key, 1000 jersey barriers enroute, no means for warmth, tow plan, robust maintenance plan for successive ops periods - More flanking and POU for agitators – less committed leave - OPP and HPS remaining O/S for maintenance
